

Fact Sheet – Transport

Common Issues

Often freight contractors and general carriers can let you down. It's difficult to know the exact whereabouts of your goods, you can experience delayed deliveries, products not being loaded correctly and products being double handled which can cause damage.

It's not uncommon for poor vehicle maintenance to cause lost time and a lot of excuses.

It's an industry full of rude drivers who are unhelpful and have a don't care attitude.

Millform Advantage

At Millform we have our own fleet of trucks covering large areas of Australia on a routine basis. The Drivers are employed directly by the company and provide an exceptional level of service due to their product knowledge and understanding of our customers. In addition our drivers are the same every week so they build a relationship with our customers and truly understand each customer's unique transport needs. We are proud of our image and make sure our fleet is cleaned and maintained to the highest levels. We monitor our due dates closely to ensure your order is delivered in full and on time.
