

BUILD FOR TOMORROW™

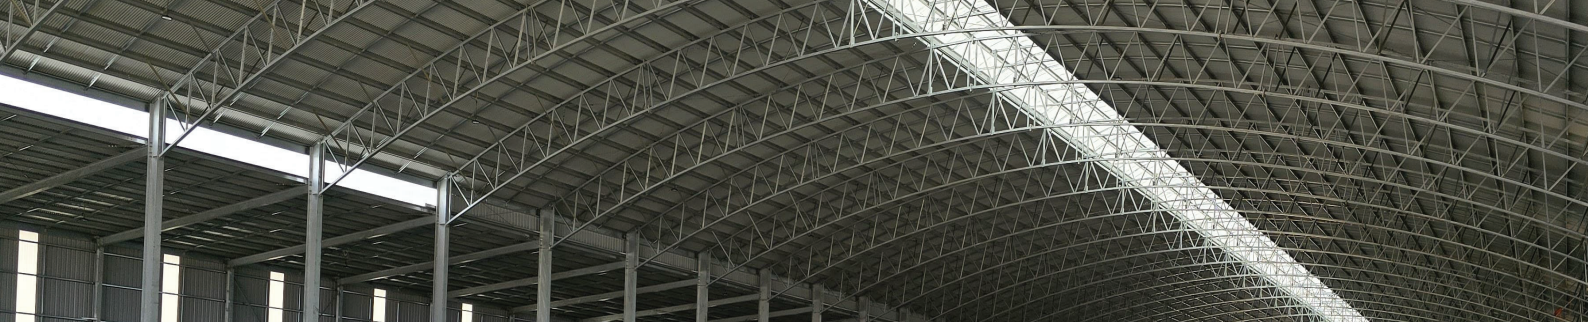

Engineered Steel Solutions for Rural
and Agricultural Applications

MSP MAGNA
-SHIELD
PRO

Future-Ready Advanced Coated Steel

INTRODUCING MAGNA-SHIELD PRO™ (MSP)

The future-ready advanced coated steel,
engineered to withstand the harshest conditions.

3-5x Longer Lifespan

Reduces maintenance and
replacement costs.

Advanced Corrosion Resistance

Protects against moisture, chemicals, and
extreme weather.

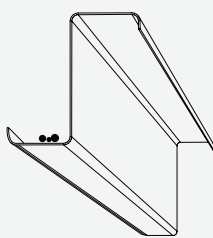

Long-Term Strength

Less maintenance, more
reliability over time.

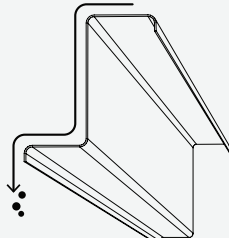

DOWNTURN LIP TECHNOLOGY

Eliminates debris buildup, making cleaning and maintenance quick and efficient.

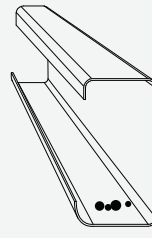

Millform manufactures high-performance cold-rolled steel products designed for the toughest rural environments. Our specialised solutions, including the **MAGNA-SHIELD PRO™ (MSP) coating** and **Downturn Lip profiles**, deliver superior durability for **livestock feedlots** as well as **poultry farms, commodity storage sheds** and **fertiliser storage facilities**.

Downturn Lip Z Purlin

Standard C Purlin

Downturn Lip C Purlin

RURAL & AGRICULTURAL APPLICATIONS

Livestock Feedlots

Durable, long-lasting steel
for high-moisture,
high-wear environments.

Commodity Storage Sheds

Reliable protection against the
elements, ensuring structural longevity.

Harsh Environmental Conditions

Ideal for coastal, humid, and
high-exposure areas.

MAKE THE SMARTER INVESTMENT

Discover how Millform's advanced steel solutions can
future-proof your rural infrastructure.
